Preface

It gives us great pleasure to present the first book comprised of the research papers written by the winners of the 2004 Hang Lung Mathematics Awards (HLMA). 2004 HLMA marked the inaugural competition jointly organized by the Department of Mathematics at The Chinese University of Hong Kong and Hang Lung Properties Ltd. in Hong Kong in December 2004. It was a pioneering collaboration between the education sector (including the strong support from the Hong Kong Education City) and the business sector in the launching of a research-based mathematics competition in Hong Kong.

HLMA came from a long-held dream we have shared: we saw the need to establish a platform where young students could be given the opportunity to discover and nurture their potentials in high-level mathematics research beyond the normal school curriculum. It is our hope that HLMA can help cultivate an independent learning environment in Hong Kong, stimulate critical thinking and encourage creativity among students.

This book has compiled the research papers of the winners of the 2004 HLMA which have displayed a high level of academic standards in terms of methodology, originality and scholarship. We were impressed by the students' thirst for knowledge and their passion for mathematics throughout the competition.

We hope that through HLMA, students would be encouraged to explore the world of mathematics and science, and to continue to cultivate their strengths and realize their potentials to the fullest. We wish to take this opportunity to thank the editors for their tireless efforts and devotion in the editing process. Through the publication of this book, we hope we will continue to inspire a future generation of mathematicians, scientists and scholars.

Professor Shing-Tung Yau

Director, The Institute of Mathematical Sciences
The Chinese University of Hong Kong

Mr. Ronnie C. Chan

Chairman
Hang Lung Properties Ltd.

October 2012

Acknowledgement

The publishing of this book has been made possible by donations from Hang Lung Properties Ltd.

The contribution to mathematics education from the initiators of Hang Lung Mathematics Awards, Mr. Ronnie C. Chan and Professor Shing-Tung Yau, will be marked in history. Professor Yau provides the academic leadership and vision for the Awards and he is also one of the editors of this volume. Hang Lung Properties Ltd. has been providing the financial support for the Awards and additional funding for the editorial and publishing cost of this volume.

The reputation of an academic award is always established upon its rigorous process of assessment and review. The Scientific Committee is the cornerstone of this intellectual excellence. The Screening Panel would like to thank Dah-Ming Chiu, Kai-Seng Chou, Sydney Chu, Dejun Feng, Jianguo Huang, Jiaxin Hu, Frank Hwang, Hui Rao, Man-Keung Siu, Baorui Song, Guobiao Zhou for their professional judgment.

The Steering Committee has contributed greatly to the popularity of the Awards in society. Many students, teachers, and schools have participated in the competition. The Executive Committee, chaired by Thomas Au, is indebted to the secretariat led by Serena Yip and the assistance of Yue-Hung Tam. The cooperation of Susan Wong and Joyce Leung from Hang Lung Properties has been invaluable. The Hong Kong Education City has been an important partner in this inaugural year, especially on publicity and event organization.

This volume will never be perfect without the commitment of Kung-Fu Ng who have led the editorial work. He would like to express his sincere gratitude to Xinhan Dong and Liren Huang for their careful reading and comment on the winning papers. The technical work of Yue-Hung Tam and the coordination of Mavis Chan had also played a crucial role in the editorial process.

Hang Lung Mathematics Awards

Introduction The Hang Lung Mathematics Awards (HLMA), co-organized by Hang Lung Properties Ltd. and the Department of Mathematics at The Chinese University of Hong Kong, is a biennial research-based mathematics competition for secondary school students in Hong Kong. Founded in 2004 by Mr. Ronnie C. Chan, Chairman of Hang Lung Properties Ltd., and world-renowned mathematician Professor Shing-Tung Yau, a 1982 Fields Medalist and 2010 Wolf Prize recipient, the competition aims to stimulate creativity and to encourage intellectual discovery in mathematics and science among secondary school students in Hong Kong.

Schools are invited to form teams and, under the supervision of a lead teacher, the teams design and carry out a mathematics research project. Each team submits a project report summarizing the findings, which is evaluated by the Scientific Committee in a multi-step process similar to that for the selection of publication in a scientific journal. Short-listed teams are invited to participate in an oral defense of their project before members of the Scientific Committee. This final stage is modeled after a doctoral degree defense and comprises two parts: a public presentation of the research project followed by a closed-door inquiry. The winners of the HLMA will be decided after the oral defense.

Hang Lung Properties Ltd. donated over HK\$2 million to each competition. The Department of Mathematics at The Chinese University of Hong Kong provides tuition scholarships to the teachers of the winning schools. The Department of Mathematics handles all administrative, operational and educational aspects of the competition.

Participation Up to five students of the same secondary school may form a team to participate in the competition. The team shall be led by a teacher of the school. After a simple registration process which started in early 2004, each team performed their study and research on a topic selected by the team. In this inaugural year of the HLMA, students had only 6 months to work on the research and had to submit their reports in September 2004. There were 81 teams from over 50 schools participated and 44 of those teams submitted research reports.

Assessment To decide the winners, there are two stages of assessment: research report review and oral defense. The assessment in each stage is the jurisdiction of the Scientific Committee, with the support of the Screening Panel and external experts from the international mathematics community. In the reviewing stage, each research report has to pass an initial screening. Then it is sent to at least two referees of external experts. A shortlist will be selected by the Scientific Committee to proceed to the second stage of assessment, which is the oral defense. In this stage, each team will make a brief presentation of their research in front of the Scientific Committee. The presentation is open to the public. It is then followed by a closed door inquiry. The winners will be decided afterwards.

Awards Up to eight awards are presented to the mathematics projects that meet the highest academic standard in terms of research methodology and originality: Gold, Silver, Bronze, and up to five Honorable Mentions. Each award consists of four components: a “Student Education Award” to be shared equally among team members and applied towards their university studies; a “Teacher Leadership Award” for the supervising teacher; a “School Development Award” to promote mathematics education at the school; and a “Tuition Scholarship” for any teacher at the winning schools to earn a Master of Science (MSc) in Mathematics from The Chinese University of Hong Kong. The winning students and teachers also received a crystal trophy and a certificate while the school was presented with a crystal trophy.

Organization

The two principal committees of the Hang Lung Mathematics Awards are the Scientific Committee and the Steering Committee.

Scientific Committee, 2004

The Scientific Committee comprises world renowned mathematicians and is the academic and adjudicating body of the Hang Lung Mathematics Awards. The Scientific Committee oversees the whole process of assessment, including the review of the research project reports and conducting the oral defense. The committee upholds the academic integrity and high standard of the mathematics research competition as well as the awards.

List of members (affiliations at the time of the event)

Chair: Professor Shing-Tung Yau, The Chinese University of Hong Kong and Harvard University

Professor John H. Coates, Cambridge University

Professor Tony F. Chan, University of California, Los Angeles

Professor Shiu Yuen Cheng, The Hong Kong University of Science and Technology

Professor Ravi S. Kulkarni, Harish-Chandra Research Institute

Professor Ka-Sing Lau, The Chinese University of Hong Kong

Professor Jun Li, Stanford University

Professor Chang-Shou Lin, National Chung Cheng University

Professor Ngaiming Mok, The University of Hong Kong

Professor John Morgan, Columbia University

Professor Duong H. Phong, Columbia University

Professor Dan Stroock, Massachusetts Institute of Technology

Professor Tom Yau-Heng Wan, The Chinese University of Hong Kong

Professor Lo Yang, Chinese Academy of Sciences

Professor Andrew Chi-Chih Yao, Tsing Hua University

Screening Panel is a subcommittee of the Scientific Committee. It handles the initial screening of each report, supervises external review process, and serves as a bridge between all referees and members of Scientific Committee.

Chair: Professor Tom Yau-Heng Wan, The Chinese University of Hong Kong

Professor Wing Sum Cheung, The University of Hong Kong

Professor Conan Nai Chung Leung, The Chinese University of Hong Kong

Steering Committee, 2004

The Steering Committee comprises mathematicians and representatives from different sectors of society and serves as the advisory body. The committee also includes mathematics department heads of major Hong Kong universities. Some members from the Scientific Committee and Executive Committee also serve in the Steering Committee so that it has an overall perspective of all the aspects.

List of members (affiliations at the time of the event)

Chair: Professor Shing-Tung Yau, The Institute of Mathematical Sciences,
The Chinese University of Hong Kong and Harvard University
Professor Thomas Kwok-Keung Au, Mathematics, The Chinese University of
Hong Kong
Professor Shiu Yuen Cheng, Chairman of Mathematics Department, The Hong
Kong University of Science and Technology
Mr. Bankee Kwan, Chairman, Celestial Asia Securities Holdings Ltd
Professor Ka-Sing Lau, Chairman of Mathematics Department, The Chinese
University of Hong Kong
Mr. Siu-Leung Ma, CEO, Fung Kai Public School
Mr. Chun-Kau Poon, Former principal, St. Paul Co-educational College
Professor Man Keung Siu, Chairman of Mathematics Department, University
of Hong Kong
Ms. Susan Wong, Chairman's Office, Hang Lung Properties Ltd.
Professor Hung Hsi Wu, Mathematics, UC Berkeley
Professor Lo Yang, Professor, Chinese Academy of Sciences
Mr. Chee-Tim Yip, Principal, Pui Ching Middle School

Executive Committee is a subcommittee of the Steering Committee. It is in charge of the administration, promotion, team registration, communication, and organization of events including the oral defense.

Chair: Professor Thomas Kwok-Keung Au, The Chinese University of Hong
Kong
Dr. Leung-Fu Cheung, The Chinese University of Hong Kong
Dr. Ka-Luen Cheung, The Chinese University of Hong Kong
Secretariat: Ms. Serena Wing-Hang Yip, The Chinese University of Hong
Kong

Gold, Silver, and Bronze

GOLD

Team member(s): Edward Sin Tsun Fan
School: Sha Tin Government Secondary School
Team Teacher: Ms. Fei Wong
Topic: *Marked Ruler as a Tool for Geometric Constructions - from angle trisection to n -sided polygon*

SILVER

Team member(s): Fan Fan Lam, Ho Fung Tang, Ho Yin Poon,
Lok Hin Yim, Yiu Tak Wong
School: Munsang College (Hong Kong Island)
Team Teacher: Mr. Wai Man Chu
Topic: *Further Investigation on Buffon's needle problem*

BRONZE

Team member(s): Ting Fai Man, Hoi Kwan Lau, Shek Yeung,
Man Kit Ho
School: Sha Tin Government Secondary School
Team Teacher: Ms. Fei Wong
Topic: *Ghost Leg*
